Subject: RE: King's Highway Kalamazoo press question - now on deadline

Francisco,

I assume she is talking about the King Highway landfill, which is OU 3 at the Allied Paper/Kalamazoo River Superfund Site. MDEQ has the lead on that property, and she could contact Paul Bucholtz at 517.284.5072 and he could put her with an update. If she is talking about work being conducted by Kalamazoo Metal Recyclers along King Hwy in Kalamazoo, I can shed some light on that topic. Kalamazoo Metal Recyclers purchased the former King Mill property, which is part of the Kalamazoo Superfund site. They are putting fencing around the property and doing some grading on the property. Their goal is to store vehicles on the property. MDEQ representatives and I met with the property owner and toured the site on 7/31.

Let me know what else you need.

Jim Saric

Subject: King's Highway Kalamazoo press question - now on deadline

Rosemary Parker, KZ Gazette, 269 903 3638, would like to know in detail what's going on at King's Highway, whether it is Superfund or oil spill related, and in addition, brief highlights of other cleanup activities underway.

Links to fact sheets on those projects would be great.

The reporter was off, is back and on deadline.

Thanks

F

Jim or Michael,

Can you reply back to Cisco on this request. I am assuming one of you will know what is happening at Kings Hwy. If not let me know and I will follow up.

Thanks.

Yes, I would like to know in detail what's going on at King's Highway, whether it is Superfund or oil spill related, and in addition, brief highlights of other cleanup activities underway. Links to fact sheets on those projects would be great.

If you are able to provide this info quickly, I'll include it tomorrow's story about Georgia Pacific sampling today at the Pine Creek impoundment farther downstream. Otherwise, I'll do a separate post about the Kings Highway activities and any time this week or early next week would be fine.

Rosemary

Your call has been forwarded to the press office.

Just so I'm clear – you'd like to know the status of the KZ river cleanup, specifically near Kings Highway and KZ Ave?

What's your deadline?

Thanks
